

# Nolan's Recal

Greetings Traveler!

**Welcome to the realm of media**, filmmaking, photography and more. With the world as your canvas and a camera as your paintbrush, delve into the art of cinematic creation where we value creativity and individuality in each stroke, encouraging self-expression via mass communication and digital means.

Like all the greats, you must be adept in the technicals of cinematography, most notably; videography, color grading, sound and mise en scene. Each technical element is a stepping stone towards a level of media mastery akin to that of Nolan himself—or at least his apprentice. This trial is no more a test than it is a platform to train the brewing filmmakers of tomorrow. Enjoy your 2-day stay with us in which you must record, edit and present a **highlight reel** covering the events of the first two days of the notion of academia.

Each shot should be rooted in sentimental value, every clip must be a moment frozen in time and every grade must be an HSL that alludes the fiery essence of BNA. You must document the events as they occur, interpreting them through your own perceptions and merging them into a montage that **effectively recaps the happenings of the two days**. Throughout the process, teams will receive unexpected prompts, twists, and required elements that must be incorporated into the final reel. These challenges are designed to test adaptability, attention to detail, and the ability to integrate new instructions into the narrative.

Mark your place in the stars, get set for any obstacles along the way and go—**the cinematic universe awaits you.**

## Multiplier (Media)

The delegation worthy of distinction will be rewarded with the **multiplier** perk, an advantage that is sure to help you shoot for space and beyond the interstellar. Under this perk, the winning team can pick their poison (**any module round** of their choice) after which their overall score will be multiplied by a factor of 1.5. Do not hesitate to join this trial and gain the multiplier, as even the slightest difference can lead to the greatest victory
